Hi Cathy

I checked with Lily on the FOST letter. Its been buried in her inbox. She said she would work on it today.

Carolyn d'Almeida

Cathy

Of those dates our preference would be

- 1) Monday 2/24 or
- 2) Thursday 2/27

Karla is not available the first week in March

Carolyn and Wayne –

We were looking at proposed dates for 2020 BCT meetings / calls and the week of Jan. 13th looks too early for completing data presentations and also outlining project activities through the end of the contract.

Could you please check if the last week in February or first week in March would work for a meeting? We would plan for one day either Tuesday, Wed., or Thursday.

We had an AF BRAC briefing on the current status of the follow on contract and I can set up a call with you to provide an update (maybe Wed. or Thur. or Friday next week). There is a public website beta.SAM.gov where project information is posted. Search term under contract opportunities is BECOS. There is a draft RFP and questions on the draft RFP. Williams is in the Southwest region.

Carolyn-do you know when the FOST letter will be completed for the water tower property?

The contracting package for the ST012 additional wells was reviewed by the new contracting officer and has been updated. I am working with contracting to make sure they have all the information needed. I hope to have an update on the schedule during our call next week.

Thanks and have a good weekend.

Cathy
